A knifing in a bar on Pico, a shooting in a rooming house on Irolo.,Congreve's voice warmed to his theme, and his manner became more urgent and persuasive. "Developments in genetic engineering and embryology make it possible to store human genetic information in electronic form in the' ship's computers. For a small penalty in space and weight requirements, the ship's inventory could be expanded to include everything necessary to create and nurture a first generation of, perhaps, several hundred fully human embryos once a world is found which meets the requirements of the preliminary surface and atmospheric tests. They could be raised and tended by special-purpose robots that would have available to them as much of the knowledge and history of our culture as can be programmed into the ship'- computers. All the resources needed to set up and support an advanced society would come from the planet itself. Thus, while the first generation was being raised through infancy in orbit, other machines would establish metals- and materials-processing facilities, manufacturing plants, farms, transportation systems, and bases

suitable for occupation. Within a few generations a thriving colony could be expected to have established itself, and regardless of what happens here the human race would have survived. The appeal of this approach is that, if the commitment was made now, the changes involved could be worked into the existing schedule for SP3, and launch could still take place in five years as projected.'.there was no verbal swordplay and no pretense about her, which was as attractive in its way as.husband had been killed in a plane crash in 1978. He had a partner who handled the business operations.The sailors gathered on the deck of the ship just as the sun began to set, and the grey man put one grey gloved hand on Amos' shoulder and pointed to the mountain with his other. "There, among the windy peaks, is the cave of the North Wind. Even higher, on the highest and windiest peak, is the second fragment of the mirror. It is a long, dangerous, and treacherous climb. Shall I expect you back for breakfast?".81.The background music changed from Vivaldi's Four Seasons to a Sondheim medley, and all the chairs in Barry's area suddenly lifted their occupants up in the air and carried them off, legs dangling, to their next conversational destination. Barry found himself sitting next to a girl in a red velvet evening dress with a hat of paper feathers and polyhedrons. The band of the hat said, "I'm a Partyland Smarty-pants.".as the as-if speculation which produces medical and technological advances..return and eat my eggs and sausages.".that you are still in charge down there and that all of this is merely some kind of poor-taste humor..and some of 'em don't even know the name of the President? Most of 'em never been more than thirty miles from the place they were born, never saw an electric light? You wouldn't believe it. But it's more than just things that're different. People are different, think different? like a foreign country." He shrugged. "I guess it'll all be gone before too long though. Things keep creepin' closer and closer. Did you know I never went to school?" he said, grinning. "Not a day of my life. I didn't wear shoes till I was ten. You wouldn't believe it." He shook his head, remembering. "Always kinda wished I coulda gone to school," he murmured softly..again, he sees the sails flapping, then belying out full. The sea is rising. He looks for the boat, but now."I have a plan," said Amos... earlier today, well. . .". "Did he get my report?".When the blowout started, Lang had snapped on her helmet quickly. Then she had struggled against.hunchback?".I stood up. "I'll do that. Thank you very much." I looked at the plate-glass doors. I guess it would be.The wind flays us for a moment; Jain's hair whips and she shakes it back from her eyes. I pull her into the shelter of my arms, wrapping my coat around us both. "Do you want to go back down to the car?".Barry nodded. He didn't understand what Ed was saying in any very specific way, but he knew he."That is not much for true friendship," said Amos..The three scientists allowed their studies to slide as it became more important to provide for the needs of the moment The dome material was weakening as the temporary patches lost strength, and so a new home was badly needed. They were dealing daily with slow leaks, any of which could become a major blowout..Her hair had come loose during the lovemaking and was hanging down over her face. She parted it."And what is that?"
