He was the president of a company that bore his name and which held more than a hundred patents in the scientific instrument field. He was sixty, a widower. His only daughter and her husband had been killed in a plane crash in 1978. He had a partner who handled the business operations now; Smith spent most of his time in his own lab. In the spring of 1990 he was working on an image-intensification device that was puzzling because it was too good. He had it on his bench now, aimed at a deep shadow box across the room; at the back of the box was a card ruled with black, green, red and blue lines. The only source of illumination was a single ten-watt bulb hung behind the shadow box; the light reflected from the card did not even register on his meter, and yet the image in the screen of his device was sharp and bright When he varied the inputs to the components in a certain way, the bright image vanished and was replaced by shadows, like the ghost of another image. He had monitored every television channel, had shielded the device against radio frequencies, and the ghosts remained. Increasing the illumination did not make them clearer. They were vaguely rectilinear shapes without any coherent pattern. Occasionally a moving blur traveled slowly across them..The image as it swells hypnotically toward him is clear and sharp, without tremor or atmospheric distortion. I (like many reviewers) often stage a tittle play called The Adventures of Byline. But I agree (see question S) that Tolkien is a good, interesting, minor writer whose strong point is his paysages moralists. Ditto C S. Lewis, in bis Naraya books. As for other writers mentioned, only strong, selective blindness could miss the Vancian cynicism or the massive Dunsanian irony (sometimes spilling over into despair) which make their heroism far from simple or unquestioned-by-the-authors-them-selves. As for the others, I find them ghastly when uncorrected by i comedy, or satire (Morris, sometimes), or (in Beagle's case) the nostalgic wistfulness which belongs to fantasy per se rather than the many configurations, but all had vanes covered with a transparent film like cellophane, and all were. It sat on the arm of the couch like a little gnome and smiled. It ran its fingers down the side of Detweiler's cheek and pushed his damp hair back out of his eyes. Detweiler's expression was euphoric. He sighed softly and opened bis eyes sleepily. After a while he sat up.. Bless you, what makes you think I know? (See, there goes Byline.) Actually, critics can make educated guesses from time to time about the tastes of some groups of readers. Editors must, such judgments being their bread and butter? and look how often they fail. If judgments of beauty and truth art difficult, imagine what happens when the issue is escape reading, i.e., something as idiosyncratic as guided daydreams. Perhaps the popularity of series novels is due in part to readers* desire for a reliable, easily reproducible pleasure.
