Wizards are used to overweening confidence in the young of their kind. They expect modesty to come later, if at all. "I said Roke," Hemlock said in a tone that said he was unused to having to repeat himself. And then, because this boy, this soft-headed, spoiled, moony boy had endeared himself to Hemlock by his uncomplaining patience, he took pity on him and said, "You should either go to Roke or find a wizard to teach you what you need. The excited turmoil of his mind all the time he had been with Gelluk slowly quieted. From it something rose, coming close, coming clear, the image he had seen down in the mine, shadowy yet distinct: the slave in the high vault of the tower, that woman with empty breasts and festered eyes, who spat the spittle that ran from her poisoned mouth, and wiped her mouth, and stood waiting to die. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves. Through the irresponsibility of these wizards and the perversion of their power, magic itself came into disrepute..time to time, and then shut his eyes.."Anyone can make a fist and show a palm," said the tall woman, pleasantly. But something else was occupying me. I sat half supine, my legs stretched out, much, although I realized immediately that there was not an iota of admiration in it. What did Licky had told him that it was the fumes of the metal rising from heated ore that sickened and killed the people who worked in the tower. Otter had never entered it nor seen Licky enter it. He had come close enough to know that it was surrounded by prisoning spells that would sting and bewilder and entangle a slave trying to escape. Now he felt those spells like strands of cobweb, ropes of dark mist, giving way to the wizard who had made them. She stared at him with those strange eyes, as unreadable as a sheep's, he thought. Then she burst out: "You lived there? You studied there? Do you know the Archmage?". "It's a little like the real, except you can touch everything. You can walk on mountains. She looked at him in the starlight, and said, "Tell me your name - not your true name - only what. but there's no more in that than a few drops. It's scarcely worth burning for so little.
