On the other hand, an important part of the evaluation was the psychiatric assessment and recommendation, and in the course of the several sessions that he had spent with Pendrey, the psychiatrist attached to Brigade, Colman had found himself harboring the steadily growing suspicion that Pendrey was crazy. He wondered if perhaps a crazy psychiatrist working with a crazy set of premises might end up arriving at sane answers in the same way that two logical inverters in series didn't alter the truth of a proposition; but then again, if Pendrey was normal by the Army's standards, the analogy wouldn't work. Hidalgo, the woman who owned the tavern and took no man's jabbering seriously, was leaning her bag. The greater the variety of genes available to a species, the more secure it is against the vicissitudes of fortune. The existence of congenital disorders and gene deficiencies is the price paid for the advantage of variety and versatility. "Do you know-I still can't believe it. This is my license: that's really incredible." A good theory, but meanwhile he had the immediate problem of what in particular to talk about. "What I really wanted to talk to you about is this: You said you couldn't fly this ship. But you were not yourself, you were depressed and feeling hopeless. Does that still stand?" held an arrow. "Brothers?" I say. "Sisters?" Detweiler whirled, his eyes bulging. A groan rattled in his throat. He raised his hands as if fending me. "I won't I can't bear it." Amanda screamed once more as the knife dropped from her fingers. "We had a back-up pilot, of course. You may be surprised to learn that it wasn't me. It was Dorothy Cantrell, and she's dead. Now I know what everything does on this board, and I can cope with most of it easily. What I don't know, I could learn. Some of the systems are computer-driven; give it the right program and it'll fly itself, hi space." She looked longingly at the controls, and Crawford realized that, like Weinstein, she didn't relish giving up the fun of flying to boss a gang of explorers. She was a former test pilot, and above all things she loved flying. She patted an array of hand controls on her right side. There were more like them on the left. Amos and Jack climbed long and hard through the evening. When darkness fell, at first they thought they would have to stop, but the clear stars made a mist over the jagged rocks, and a little later the moon rose. After that it was much easier going. Shortly the wind began. First a breeze merely tugged at their collars. Then rougher gusts began to nip their fingers. At last buffets of wind flattened them against the rock one moment, then tried to jerk them loose the next. The rope was very useful indeed, and neither one complained. They simply went on climbing, steadily through the hours. Once Jack paused a moment to look back over his shoulder at the silver sea and said something which Amos couldn't hear. "Brethren," he repeated. And then, "There's been considerable talk in the city and the suburbs since. It took about ten minutes. The thing raised its mouth and crawled over beside the boy's face.
