The war had left his parents afflicted by genetic damage, and their first two children had not survived infancy. Aging prematurely from side effects, they had known they would never see Chiron when they brought him aboard the Mayflower II as a boy of eight and sacrificed the few more years that they might have spent on Earth in order' to give him a new start somewhere else. Paradoxically, their health had qualified them favorably in their application to join the Mission since the planning had called for the inclusion of older people and higher-risk actuarial categories among the population to make room for the births that would be occurring later. By taking his.Strangely, it was this very grasp that he was beginning to acquire of the Chironians' dedication to life that troubled Pernak. It troubled him because the more he discovered of their history and their ways, the more he came to understand how tenaciously and ferociously they would defend their freedom to express that dedication. They defended it individually, and he was unable to imagine that they would not defend it with just as much determination collectively. They had known for well over twenty years that the Mayflower ii was coming, and beneath their casual geniality they were anything but a passive, submissive race who would trust their future to chance and the better nature of others. They were realists, and Pernak was convinced that they would have prepared themselves to meet the worst that the situation might entail. Although

nobody had ever mentioned weapons to him, from what he was beginning to see of Chironian sciences, their means of meeting the worst could well be very potent indeed. "Fifty?" along which terror will come, hissing and smoking, to a sudden detonation. .cup, Micky didn't mind the edge that the brew acquired. In fact, Leilani's story stirred in Micky a long. "They're messing us around," General Johannes Borstein, Supreme Commander of the Chiron Expeditionary Force--the regular military contingent aboard the Mayflower II--told the small group that had convened for an informal policy discussion with Garfield Wellesley in the Mission Director's private conference room, located in the upper levels of the Government Center in the module known as the Columbia District. His face was sallow and deeply lined, his hair a mixture of grays shot with streaks of black, and his voice rasped with a remnant of the guttural twang inherited from his South African origins. "We've got two years to get this show organized, and they're playing games. We don't have the time. We haven't seen any evidence of a defense program down there. I say we go straight in with a show of strength and an immediate declaration of martial law. It's the best way." CHAPTER FOURTEEN. Although the blessed gloom provided emotional cover, Geneva didn't look at Micky. She stared at the. "I never said they'd do anything," the robot replied. "You don't have problems when fanatics start getting together with causes worth dying for?" Jay asked. "It's happened," Hanlon told him. "Kalens is dead. We found him inside the house, shot six times. Whoever did it knew what they were doing." Ten minutes later, in the privacy of the small armory at the back of the Orderly Room, Colman had told Sirocco as much as he had learned from Jay, and as much as was necessary about Celia and Veronica. Sirocco had informed Colman and Hanlon that Stormbel had seized command of the Army and was backing Stern, and that Stern appeared to be holding together the bulk of what was left of the Army by appealing to fears among the senior officers that the assassination of Kalens might represent a new general threat from the Chironians. Noah spoke her name, but as he expected, Laura didn't respond. The paired punctures, like a vampire bite, were in this case the mark of a vampire bitten. Sinsemilla was highly amused. Words whooped from her on peals of laughter. "It's not poisonous, you. Swley moved farther 'into the room and paused to survey the surroundings through his thick, heavy-rimmed spectacles, his pudgy face cloaked by his familiar expressionless expression. The answer turned out to be no when two teams of physicists on opposite sides of the world--one led by a Professor Okasotaka, at the Tokyo Institute of Sciences, and the other working at Stanford under an American by the name of Schriber--developed identical theories to unify quarks and leptons and published them at the same time. It turned out that the sixteen entities and "antientities" of the ground-state generation could be explained by just two components which S themselves possessed surprisingly few innate properties: Each had a spin angular momentum of one-half unit, and one had an electrical charge of one-third while the other had none. I think it might go through to where the .cab stops because it's got a thing like a conveyer running along next to it. Perhaps we needn't have carried all those things over and in through the front door at all". four rioters were left behind with sore heads or other minor injuries. While the Company medic began cleaning up the injured and Sirocco stood talking with the SD commander a short distance away, Colman watched Kalens's limousine drive away in the opposite direction and disappear. That was how it had always been, he could see now. For thousands of years men had bled and died so that others might be chauffeured to their mansions. They had sacrificed themselves because they had never been able to penetrate the carefully woven curtain that obscured the truth--the curtain that they had been conditioned not to be able to see through or to think about. But the Chironians had never had the conditioning. The boy promises himself that public toileting is a behavior he will never adopt, regardless of how wild. "Didn't you know you were expendable?" Stanislaw asked matter-of-factly. Curtis Hammond mutters, wrestles briefly with his sheets, but doesn't wake. "You what?" Jean gasped, horrified. Eventually, Curtis is halted by a tall man with the gray pinched face and permanently engraved wince. Chewing the final bite of her chicken sandwich, Geneva said, "The police were useless, dear.
