The moment that the roof of the car vanished beneath the water, Junior hurried away, retracing on foot the route he had driven. He didn't have to go all the way back to Vanadium's place, only to the dark house where he'd left Victoria Bressler. He had a date with a dead woman..For an instant, she appeared to be frowning. Then he realized this couldn't be a frown. It must be a smoldering look of desire.. "Sure. There's lots of places where he didn't get shot, but there's places where he got shot and died, too." He nodded. "The effect not only comes before a cause in this case, but completely without a cause. The effect is staying dry in the rain, but the cause-supposedly walking in a dryer world-never occurs. Only the idea of it." There would be lots of aftermath with three at once, especially if he took them out with point-blank head shots, but Junior was pumped full of reliable antiemetics, antiarrhythmics, and antihistamines, so he felt adequately protected from his traitorous sensitive side. In fact, he wanted to see a significant quantity of aftermath this time, because it would be proof positive that the boy was dead and that all this torment had come at last to an end..Her lead gaze was still surprisingly clear. How remarkable that the impact hadn't caused a starburst hemorrhage in either of her exquisite, lavender-blue eyes. No blood, just surprise..For the next few days, they would eat all their meals in the suite. Most likely, Cain had left San Francisco. And even if the killer hadn't fled, this was a big city, where a chance encounter with him was unlikely. Yet having, assumed the role of guardian, Tom Vanadium had a zero tolerance for risk, because the inimitable Mr. Cain had proved himself to be a master of the unlikely..On the sofa, Celestina finally worked up the courage to dial her parents' number in Spruce Hills..Bill wasn't impressed. "They build houses out of mud in China. No wonder everything falls down." "I'm not sad," Tom said, "because though I have this face here in this world, I know there's another me-in fact, lots of other Tom Vanadiums-who don't have this face at all. Somewhere I'm doing just fine, thank you." Halted by the unmistakable meaning of the expressions on these women's faces, Paul was grateful that Nellie was briefly stricken mute. He didn't believe he had the strength to receive the news that she had tried to deliver..The popeyed little toad smirked over there on the far side of his pretentious desk..MONDAY MORNING, far above Joe Lampion's grave, the translucent blue California sky shed a rain of light so pure and clear that the world seemed to have been washed clean of all its stains..Glaring and red-faced, lowering his voice almost to a whisper, Neddy said, "I'm sorry, but you've got me all wrong. I'm not like Renee and you." In the passenger's seat, Barty was cushioned in his mother's arms. At times, the boy cooed or gurgled, or made a wet chording sound..Only Angel spoke, with nary a catch or quiver, fully confident in her Barty. "Anything he can teach me, I can learn, and anything I can see, he can know. Anything, Aunt Aggie." He had never expressed opposition to starting a family. She'd had no reason to fear telling him that she was carrying their child..The rain was colder than it had been earlier, almost as icy as sleet. Or perhaps she was far hotter than before and felt the chill more keenly on her fevered skin. Each droplet seemed to hiss against her face, to sizzle against her hands, with which she tightly gripped her swollen abdomen as if she could deny Death the baby that it had come to collect..Fragments of the broken wineglass crunched under his shoes as he crossed the small kitchen to the dinette. He opened the bottle of vodka and put it on the table in front of the dead woman..Tommy James and the Shondells, good American boys, had a record farther down the charts-"Hanky Panky"-that Junior felt was better than the Beatles' tune. The failure of his countrymen to support homegrown talent aggravated him. The nation seemed eager to surrender its culture to foreigners..Instead of immediately killing anyone, Junior returned to his apartment on the afternoon of December 29, and went to bed, fully clothed. To calm down. To think about focus.. "You know Mommy," Barty said, almost desperately sponging up the sight of his little girl's face and wringing the images into his memory to sustain him in the next long darkness..If he was left standing on the porch, the visitor would circle the house, peering in windows where the drapes were not drawn, trying the doors in hope of finding one unlocked. Fearful that Victoria was sick or injured, that perhaps she had slipped on a pat of butter and cracked her head against the corner of an open oven door, he might try to force his way inside, break a window. Certainly he would go to the neighbors to call the police..Friday night, mystified and troubled, he hadn't slept much, and each time that he dozed off, he had dreamed of being alone in a bosky woods, stalked by a sinister presence, unseen but undeniable. This predator crept in silence through the underbrush, indistinguishable from the lowering trees among which it glided, as fluid and as cold as moonlight, but darker than the night, gaining on him relentlessly. Each time that he sensed it springing toward him for the kill, Jacob woke, once with Barty's name on his lips, calling out to the boy as though in warning, and once with two words: the knave. . . . Thus far, none of these women of mercy was as lovely as Victoria Bressler, the ice-serving nurse who was hot for him. Nevertheless, he kept looking and remained hopeful..Barty came out of the house with the library copy of *Podkayne Of Mary*, which his mother had promised to read to him later, in the hospital. "Are we

all going?" he asked. A cold wetness just above the crook of his left elbow. A sting. A tourniquet of flexible rubber tubing had been tied around his left arm, to make a vein swell more visibly, and the sting had been the prick of a hypodermic needle. It occurred to her that the knave had come, as foretold by the cards on that night long ago. She had expected the knave to be a man with sharp eyes and a wicked heart, but the curse was cancer and not a man at all. Glancing at the plump pie in Edom's hands, the gentleman replied to Agnes in a musical yet gravelly voice worthy of Louis Armstrong: "You must be the lady Reverend Collins told me about." ROCKING AS IF AFLOAT on troubled waters, abused by an unearthly and tormented sound, Junior Cain imagined a gondola on a black river, a carved dragon rising high at the bow as he had seen on a. Junior didn't know much about guns. He didn't approve of them; he had never owned one. "Great guy. Do you have an address for her, a way maybe I could get in touch about her brother?" the stems, thorns sharp against his tongue. And then Agnes. Agnes in the yard, screaming. Zedd taught in this world where dishonesty is the currency of social acceptance and financial success, you must practice some deceit to get along in life, but you must never lie to yourself, or you are left with no one to trust. Victoria lived on the northeast edge of Spruce Hills, where streets petered into country lanes. Here the houses tended to be more rustic, built on larger and less formally landscaped lots than those closer to the center of town, and set back farther from the street. As the paramedic shoved the gurney across the step-notched bumper, its collapsible legs scissored down. Agnes was rolled headfirst into the ambulance. For an instant, his attention had been distracted by Vanadium's presentation of his empty hands. Nevertheless, there was no way the cop could have snatched the coin out of the air. The candlestick was dry. Holding this pewter bludgeon with a paper towel, Junior replaced it on the table as he had found it. He picked up the candle from the floor and married it to the stick. "Maria is coming by with Francesca and Bonita," Agnes said. "We might as well put all the extensions in the table. Barty, call Uncle Jacob and Uncle Edom and invite them for dinner." In his light backpack, he carried one change of clothes, spare socks, candy bars, bottled water. He planned his journeys to be in a town every nightfall, where he washed one set of clothes and donned the other. there in more genteel and gilded ages, and her flights of imagination sometimes acquired such vivid detail that they were eerily like memories. Down the stairs, through the ground floor, quickly, soundlessly, breath held at times, listening for the other's breathing, listening for the softest squeak of rubber-soled shoes, although the hard clack of cloven hoofs and a whiff of sulfur would not have been surprising. At last he went to the kitchen, full circle from the shiny quarter on the breakfast table to the quarter again. No Cain. As they moved around the base of the oak from one vantage point to another, people stopped by to reassure Agnes, although never with a word, as though to speak would be to jinx the climb. Maria placed a hand on her arm, squeezed gently. Celestina briefly massaged the nape of her neck. Edom gave her a quick hug. Grace slipped an arm around her waist for a moment. Wally with a smile and a thumbs-up sign. Tom Vanadium, thumb and forefinger in a confident OK. Lookin' good. Hang in there. Signs and gestures, maybe because they didn't want her to hear the quivers and catches in their voices. With the dead woman's guest on the way, minutes were precious. Attention to detail was essential, however, regardless of how much time was required to properly stage the little tableau that might disguise murder as a domestic accident. Junior could almost feel sorry for this sad, stocky, haunted detective, deranged by years of difficult public service. The second ring was followed by a click, and then a familiar droning voice said, "Hello. I'm Thomas Vanadium." Back in January, when he received the disappointing report from Nolly Wulfstan, Junior was not convinced that the private detective had exercised due diligence in his investigation. He suspected that Wulfstan's ugliness was matched by his laziness. The container-eye-level at the top, battered, rust-streaked, beaded with condensation-was larger than some in the alleyway, with a bifurcated lid. Both halves of the lid were already raised. No hesitation preceded Grace's response. "That's very generous of you, Paul. And I, for one, accept. Is this the house where you lived with your Perri?" "There must be something important I'm supposed to do here that I don't need to do everywhere I am, something I'll do better if I'm blind." their work, tears were followed by reminiscences that brought a smile and soothed, and hope was always found to be the flower that bloomed from every seed of hopelessness. Then he curled up in one of the big armchairs in the living room and began the book again. This was the first time he had ever reread a novel-and he finished it at midnight. Hisscus, Nork, and Knacker exchanged sharp glances, nonplussed. Finally, one of them said, "We couldn't do that, Mr. Cain. Not until you've consulted an attorney." Barty let go of the girl's hand, and although he remained dry, the storm at once found her where she'd been hiding in the silver-black folds of its curtains. At the far end of the table, Agnes shot up from her chair as her son said rain, and as he said wet, she spoke warningly: "Barty!". Living high. When I wasn't on the road, I had a fine house here in Bright Beach, not this rental shack I'm in now, but a nice little place with an ocean view. You can guess what went wrong. One of the gifts of power is to know power. Wizard knows wizard, unless the concealment is very skillful. And the boy had no skills at all except in boat-building, of which he was a promising scholar by the age of twelve. About that time the midwife who had helped his mother at his birth came by and said to his parents, "Let Otter come to me in the evenings after work. He should learn the songs and be prepared for his naming day." Barty's math and reading skills exceeded those of most eighteen year-olds, but regardless of his brilliance, he was a few days shy of his third birthday. Prodigies were not necessarily as emotionally mature as they were intellectually developed, but Barty listened with sober attention, asked questions, and then sat in silence, staring at the book in his hands, with neither tears nor apparent fear. In addition to mulling over strategy, Tom had spent a lot of time lately brooding about culpability: his own, not Cain's. By seizing on the name that he heard Cain speak in a dream, by making use of it in this psychological warfare, had he been the architect of the killer's Bartholomew obsession, or if not the architect, then at least an assisting. "It isn't that, Daddy. You remember, when we were all together the day before yesterday, how afraid Phimie was of this man. Not just for herself ... for the baby." "Sulk away," the man said. "If you don't like this work, there's always the roaster." Maria set aside two cards before turning another faceup. This was also an ace of hearts. He had taken refuge in meditation, because he'd been frustrated by his continuing failure in the Bartholomew hunt and disturbed by his apparently paranormal experiences with quarters and with phone calls from the dead. More deeply disturbed than he had realized or had been able to admit. Hope, on many wings, hovered all around the physician, but he was afraid to let it roost. Junior raised his voice even further: "In those old movies, the Little Rascals." Thus armored, he at last arrived in the city of Sacramento, an hour before dawn. Sacramento, which means "sacrament" in Italian and in Spanish, calls itself the Camellia Capital of the World, and holds a ten-day camellia festival in early March-already advertised on billboards now in mid-January. The camellia, shrub and flower, is named for G. J. Camellus, a Jesuit missionary who brought it from Asia to Europe in the eighteenth century. "I know Edom and Jacob have been a burden," said Vinnie, "you having to be responsible for them-". The crazy bitch wielded it with such ferocity that the force of the impact with the floor, rebounding upon

her, must have numbed her arms. She stumbled backward, dragging the chair, temporarily unable to lift it..Spinning off the stool, the bun cap in one hand and the mustard dispenser clutched in the other, Junior surveyed the long narrow diner. Looking for the maniac cop. The dead maniac cop. He half expected to see Thomas Vanadium: head crusted in blood, face bashed to pulp, caked in quarry silt, and dripping water as though he'd climbed out of his Studebaker coffin just minutes ago..His request felt like an assault. Agnes almost rocked backward as though struck..Aftermath had a way of being discovered, often at the worst of all possible moments, which he had learned from movies and from crime stories in the media and even from personal experience. Discovery always brought the police at high speed, sounding their sirens and full of enthusiasm, because those bastards were the most past-focused losers on the face of the earth, utterly consumed by their interest in aftermath.. "Maybe." In truth, Tom didn't believe that any of this could be learned even by one adept taking instruction from another adept. They were born with the same special perception, but with different and strictly limited abilities to interact with the multiplicity of worlds that they could detect. He wasn't able to explain even to himself how he could send a coin or other small object Elsewhere; it was something he just felt, and each time that the coin vanished, the authenticity of the feeling was proved. He suspected that when Barty walked where the rain wasn't, the boy employed no conscious techniques; he simply decided to walk in a dry world while otherwise remaining in this wet one-and then he did. Woefully incomplete wizards, sorcerers with just a trick or two each, they had no secret tome of enchantments and spells to teach to an apprentice..This surprised him. Of course, Oregon was not the Deep South. It was a progressive state. Nevertheless, he was surprised. Oregon wasn't home to many Negroes, either, a handful compared to those in other states, and yet until now Junior supposed that they had their own cemeteries.. "Well, you're sweet, aren't you? And you're all bright red on the outside and milk chocolate inside," Celestina said, gently tweaking the girl's light brown nose..This brilliant mouthful was not nature's work alone. With what Nolly must have spent to obtain this smile, some fortunate dentist had kept a mistress in jewelry through her most nubile years..Agnes considered describing the sunset to the blinded boy, but her hesitancy settled into reluctance, and by the time the stars came out, she had said not a word about the day's splendid final act. For one thing, she worried that her description would fall far short of the reality, and that with her inadequate words, she might dull Barty's precious memories of sunsets he had seen. Primarily, however, she failed to remark on the spectacle because she was afraid that to do so would be to remind him of all that he had lost.
