The changes that the computers had detected were tiny--the merest beginnings of a trend which, if it continued at the present rate, wouldn't approach anything serious for a month or more. With only another three months to go before the ship reached Chiron there was no cause for alarm since the rest of the pump-group had enough design margin to make up the difference even without the backup. But even so, there was little doubt that Merrick would insist on the primary's being stripped down to have its bearings reground, alignment rechecked, and rotor rebalanced again. But at times he'd been as the old, the body would not reject it? Surely that is the best possible application of cloning. Dramatization is another. I (like many reviewers) often stage a little play called The Adventures of Byline. Byline (or "1") is the same species of creature as the Kindly Editor or the Good Doctor, who appear from time to time in these pages. That is, she is a form of shorthand. When Byline rewrites story X, that doesn't mean that I, the real, historical personage, actually did or will or wish to rewrite story X, or that I expect its real, historical author to rewrite it to Byline's prescription, any more than my saying that "my" copy of Bug Jack Ban-on tried to punch "me" in the nose means that such an event really happened. Pauline Kael's Movie Loon is another such fiction; these little creatures we send scurrying about the page are not our real, live selves, and their exploits are dictated more by the exigencies of our form than by a desire for personal glory. "But it could be done, right? With the proper shielding so the plants won't be wiped out before they. Mallory, you've led a clean, wholesome life and it's paying off. Because some people don't. Over their orange juices Columbine told Barry a long and very unhappy story about her estranged but nonetheless jealous and possessive husband, who was a patent attorney employed by Dupont in Wilmington, Delaware. Their marital difficulties were complex, but the chief one was a simple shortage of togetherness, since his job kept him in Wilmington and hers kept her in New York. Additionally, her husband's ideal of conversation was very divergent from her own. He enjoyed talking about money, sports, and politics with other men and bottled up all his deeper feelings.
