ABOUT THE AUTHOR. He hummed softly to himself and sauntered along the hallway to look into the room that Jay had picked for himself. Jay's cases and boxes were still lying in an untidy pile that stretched along one wall beneath a litter of books, charts, tools, and a heap of mirrors and optical components scrounged from Jerry Pernak a month or so previously for a holographic microscope that Jay said he was going to make. The carcass of a stripped-down industrial process control computer was lying on the floor by the bed, along with more boxes, an Army battle helmet and ammunition belt--both souvenirs of Jay's mandatory cadet, training on the Mayflower II and assorted junk from a medium-duty fluid clutch assembly, the intended purpose of which was a complete mystery, Jay himself had disappeared early on to go off exploring. Bernard shrugged to himself. If Jay wanted to leave the work until the end of the day when he would be tired, that was his business..until they have achieved total synergism..her face..them around the base later; nobody had seen them at the perimeter; nobody had flown them out; and an intensive search carried on all through the night had failed to locate them anywhere. It was impossible, but it had happened.. "What would you wish them to do?" Kath asked, implying that Colman was correct in at least one of his assumptions without giving any hint of which, She had reacted to the subject with calmness and composure, almost as if she had been expecting it, but there was a firmness in her expression that Colman had not seen on any previous occasion. Her manner conveyed that what was at stake went beyond personal feelings and individual considerations., Colman sighed. "It's not anything like that. It's just--" Anita waved a hand in front of her face. "It's okay. You don't want me around... you don't want me around. It's okay." Her voice was staving to rise and fall singsong fashion. "Who says I need anybody to have a good time, anyhow? I'm fine, see. It's okay You and lay can go talk about brains and trains." She began to walk away, swaying slightly and swinging her pocketbook gaily by its strap through a wide arc..change the subject. "What is?"..going to say. What I think is you're afraid to stop laughing-".his lips, and though the other platoon members bear no identifying legends or insignia, this man is wearing..lot of time to work its fangs out of me. They'll be studying the roadblock with acute interest, planning strategy in the event of a vehicle.Of course, this is a little cottage on wheels, not a castle. It doesn't afford as many hiding places as a titled.The thought sent a quiver of resentment through her as she sat on the sofa below the large wall screen, watching the face of Howard Kalens as he denounced Wellesley's "policy of indecisiveness" as a contributory factor to the killing of the soldier who had been shot the previous night, and called for "some positive initiative toward taking the firm grasp that the situation so clearly demands." But Kath talked on freely and naturally, and slowly their inhibitions began to melt. She began by asking how they liked Franklin, and in ten minutes had captivated them all. Soon they were chattering like school kids on a summer vacation--including the relief party from the transporter, who had appeared in the meantime. The detail due for a break seemed to have forgotten about it. Something very strange was going on, Colman told himself again. "Cut it," Colman grated. "You leave him out of it. If it's me you want, I'll take the three of you, but some other place. He's got nothing to do with this."..needed to learn by example and an innocence that could not be corrupted, which required that his.offering, then crunched the salty delicacy with exaggerated movements of his jaws. The whole planet, he realized as he reflected on it, was a powerhouse of progress, unchecked by any traditions of unreason and with no vested-interest obstructionists to hold it back. If the pattern continued until Chiron became a fully populated world, it would effectively leave Earth back in the Stone Age within a century. "Have you actually flown it anywhere yet?" he asked, turning his head toward Kath. "The Kuan-yin . "Oh, Jay, don't be silly. Come on now--tell me where all this came from."..Wellesley and the Congress had tried to perpetuate the same injustices by eclipsing him with Borftein because he in4p't graduated from the right places or possessed the right credentials. They had tried to fob him off with the command of what they had seen as a proficient but small and unimportant corps of specialists. They had all paid too. Now they all knew who he was and where they stood. He had no regrets about Ramisson's death; it underlined the lesson more forcefully than any words could have done. He was only sorry he hadn't made a cleaner sweep by shooting them all..Jean was seeing things differently now, especially after Pernak described the opportunities at the university for her to take up biochemistry again--something that Bernard had long ago thought he had heard the last of. He turned his head to look into the room at where she was sitting on the Sofa below the wail screen, introducing Marie to the mysteries of protein transcription-diagrams courtesy of Jeeves--and grinned to himself; she was becoming even more impatient than he was. Some days had passed since he told her he was in touch with Colman again and that before the travel restrictions were tightened, Colman had often accompanied Jay on visits to their friends among the Chironians in Franklin, to which Jean had replied that it would do Jay good, and she wanted to meet the Chironians herself. Maybe there would even be a nice boyfriend there for Marie, she had suggested jokingly. "A nice one," she had added in response to Bernard's astonished look. "Not one of those teenage Casanovas they've got running around. The line stays right there." "You don't think that a ship full of Asiatics coming at us armed to the teeth qualifies as an emergency?" Borftein asked sarcastically..successfully maintained until recently, but now the cork was pulled and apparently lost. Her
